ABOUT ME

I have got 14 years of experience as a Backend Developer, including 4 years of experience as a Fullstack Developer. I have worked with various technologies, including .NET, C#, EF Core, NHibernate, Typescript, and React. I am a quick learner and I am not afraid of new challenges. I am looking for a job where I can develop my skills and learn new technologies. I am open to new opportunities and I am willing to relocate. I am a team player and I am always ready to help my teammates. I am also a Freelancer, a Startup Owner and a Github Contributor, so I had a chance to develop all apps I have always wanted to.

EXPERIENCE

VOBACOM Sp. z o.o.

Zabrze, PL

Software Developer

05.2025 – now

– Acceptance Register and Investment Register apps created for Tauron.

TECHNICAL

ENVIRONMENT:

.NET 8.0, NHibernate, Typescript, RESTAPI, WCF, Git, Design Patterns, C#, Jira, GitLab

Secured Integration Platform - PaaS (Startup)

Zabrze, PL

Owner

02.2020 – now

– Application for reusing .NET components with Keycloak-based IAM layer.

TECHNICAL

ENVIRONMENT:

.NET Core, EntityFramework, WPF, Ninject, Keycloak, Consul, Docker, RESTAPI, Git, CQRS, Event Sourcing, MVC, MVVM, GitHubActions, C#, Azure Devops

Santiago Ways Apps (Startup)

Zabrze, PL

Owner

02.2022 – now

– Set of applications created for albergues.

TECHNICAL

ENVIRONMENT:

.NET 6, EntityFramework Core, RESTAPI, Git, CQRS, GitHubActions, C#, Azure Devops, React, Typescript

GitHub

Worldwide

Contributor

02.2020 – now

– List of projects published at github.com/barimale:

- * card-manager
- * upload-stream-to-questdb
- * sample-microservice

- * sensor.simulator
- * PDF-number-recognizer-cli
- * jigsaw-puzzle-solver
- * match-masters-shuffler
- * Christmas Secret Gifter(api, ui and refactored mail sender)
- * and many more...

TECHNICAL ENVIRONMENT:	QuestDB, RabbitMQ, .NET 6, EntityFramework, WPF, C#, Azure Devops, React, Typescript, Javascript
------------------------	--

DB Schenker

Warsaw, PL

Senior Software Developer

10.2022 – 12.2022

– Responsibilities:

- * Main App:
 - Code analysis - finding and solving performance-related bugs
 - Improvements - implementation of a set of command line tools dedicated for management of multilingual translations for Microsoft Dynamics CRM in a form of environment-agnostic executables and as a Visual Studio Code Extension

TECHNICAL ENVIRONMENT:	Microsoft Dynamics CRM, .NET 6.0, Visual Studio Code, Powershell
------------------------	--

Uslugi IT Mateusz Wolnica

Porto, PR

Owner

03.2021 – 02.2022

– Multilingual, universal tool for albergues:

- * End-to-end solution containing:
 - website - multilingual, static
 - shop - multilingual, dynamic
 - management-console - multilingual
- * Fully compatible with SIP-PaaS.

TECHNICAL ENVIRONMENT:	.NET 5, EFCore, Git, React, Typescript, i18n
------------------------	--

ABB Corporate Technology Center CTC

Cracow, PL

Software Developer

03.2020 – 11.2020

– Responsibilities:

- * React+Redux:
 - Implementation of the fully dynamic, plugin-based, RBAC-based, secured architecture
 - Implementation of the initialization flows
 - Implementation of the wizard mode as a matrix of rules integrated with the rest of the architecture
 - Implementation of the user specific edit-mode
 - Usage of custom hooks, functional components, redux, contexts and connected props
 - Usage of yup, formik, axios, styled components for CSS
- * Azure Devops:
 - Building and deployment app in a stateless way across DEV and STAGE environments integrated with UI tests
 - Preparing separate virtual machine dedicated only for presentations
 - Creating smoked tests-based pipeline configured as a policy, executed for each pull request to the main branch – to avoid regression

- * WebAPI:
 - Implementation mock server for the first phase of the project

TECHNICAL ENVIRONMENT:	React, Redux, REST API, Swagger, CSS, Azure Devops, Git, TortoiseGit, VisualStudio Code, Visual Studio
------------------------	--

GitHub

Worldwide

Contributor

07.2019 – 02.2020

- List of projects published at nuget.org:
 - * Keycloak:
 - Keycloak.NET.Client.FluentAPI, Keycloak.NET.Desktop.Client.FluentAPI - Fluent API builder for desktop based apps.
 - Keycloak.NET.Manager.FluentAPI - Fluent API for Keycloak.NET package, determined as a reflection of the Keycloak Administration Console website.
 - * CQRSlite:
 - CQRSlite.SQL.Extensions - Extensions of CQRSlite package provided as a set of features in the context of SQL read model.
 - CQRSlite.Ninject.Binding - Primary Ninject bindings for CQRSlite package.
 - CQRSlite.NEventStore - SnapshotStore implemented for NEventStore used together with CQRSLite.
 - CQRSlite.Extensions - Extensions of CQRSlite package provided as a set of base classes.
 - * Others:
 - ConfigurationManager.Api - .NET Consul Client provided with eager and lazy appSettings and connectionStrings adapters
 - EntityFrameworkCore.DbContextScope.Extension - DbContextScope forked and modified for EntityFrameworkCore.
 - MVVMLight.Prism.Converter - Converter for MVVMLight apps for easy migration to Prism framework.

TECHNICAL ENVIRONMENT:	.NET Standard 2.0, EntityFramework, WPF, TeamCity, Ninject, Keycloak, Consul, Docker, REST API, Git, CQRS, Event Sourcing, MVC, MVVM, GitHubActions, C#, Azure Devops
------------------------	---

DGT Sp. z o.o. [Ltd]

Straszyn, PL

Remote Software Developer

10.2017 – 02.2019

- Responsibilities:
 - * Implementation of new features used by dispatch console application(.NET)
 - * Design and implementation of map module based on client-server architecture(.NET, POC)
 - * Design and implementation of new version of dispatch application written in WPF using CQRS pattern, providing controls based on StateMachine and “iOS” look
 - * Implementation of new features used by dispatch console application(.NET)
 - * Developing and management of Continuous Integration process (TeamCity, many improvements and automatizations)
 - * Management of nuget distribution system

TECHNICAL ENVIRONMENT:	.NET Core 3.0, EntityFramework, WCF, WPF, WinForms, TeamCity, Ninject, Keycloak, SOAP, REST API, Git, SVN, Octopus, CQRS, EventSourcing, MVC, MVVM, C#
------------------------	--

ING Services Poland

Katowice, PL

Senior IT Specialist, IT Expert, DevOps Expert

04.2016 – 09.2017

- Responsibilities:

- * Implementation of a module used for communication with Active Directory (.NET) and integration with OIM, OUD, BoKS and IPA (Java)
- * Conducting demos for customers during the Sprint Review
- * Participation in workshops with McKinsey Company in Amsterdam, Netherlands

TECHNICAL ENVIRONMENT:	Java 8, Spring, Junit, .NET Framework, RabbitMQ, Jenkins, OOP, SCRUM, SonarQube, LDAP, Active Directory, REST API, Jira, C#
------------------------	---

Wincor Nixdorf

Katowice, PL

Software Developer

07.2014 – 04.2016

– Responsibilities:

- * Implementation of a module integrating POS with loyalty program for Musgrave and Centra stores

TECHNICAL ENVIRONMENT:	WinForms, SQL, WCF, OOP, Design Patterns, WiX, C#, VB
------------------------	---

Institute of Mining Technology KOMAG

Gliwice, PL

Designer

05.2013 – 07.2014

– Responsibilities:

- * Participation in the M-Smartgrid project and provide concept of failures detection system dedicated for electrical grid by using Prolog
- * Implementation of energy forecasting algorithm dedicated for mining industry
- * Design and implementation of control algorithm used for testing hydraulic cylinders

TECHNICAL ENVIRONMENT:	WinForms, SQL, C#, VB, Prolog
------------------------	-------------------------------

Bombardier Transportation

Katowice, PL

Software Engineer

10.2012 – 04.2013

Arcellor Mittal

Cracow, PL

Intern Engineer

09.2011 – 04.2012

Industrial Research Institute for Automation and Measurements PIAP

Warsaw, PL

Internship

08.2010 – 09.2010

EDUCATION

University of Dabrowa Gornicza

Field of study - Data Scientist

Dabrowa Gornicza, PL

2015–2016

AGH University of Science and Technology

M.S. in Automatic Control and Robotics, Specialization - Robotics

Cracow, PL

2011–2012

Wroclaw University of Science and Technology

B.S. in Automatic Control and Robotics, Specialization – Robotics

Wroclaw, PL

2007–2011

CERTIFICATES

- **Microsoft Specialist:** Programming in C#
- **Microsoft Specialist:** Microsoft Certified Professional
- **W3Schools :** Certified React Developer
- **W3Schools :** Certified C# Developer
- **EITCA Academy Brussels Belgium :** EITCA Artificial Intelligence Programme

LANGUAGES

- **Polish:** Native
- **English:** B1/B2
- **German:** A2

PRIVATE PROJECTS

Jigsaw Puzzle Solver

02.2023 – 12.2023

Tree-search-based and genetic-based algorithms having some science-article-based and custom improvements, with agnostic execution wrapper, provided together with geometric and binary verifiers. Suitable for solving tangrams as well as other games like Genius Junior etc.

TECHNICAL ENVIRONMENT:	.NET Core 6, WPF, React, Typescript
---------------------------	-------------------------------------

Christmas Secret Gifter

01.2022 – 03.2022

Social events helper: christmas-secret-gifter.web.app

TECHNICAL ENVIRONMENT:	React, Typescript, CSS, Azure, NodeJS, .NET Core, ORTools, Firebase
---------------------------	---

odkrywajcie.

12.2020 – 01.2021

Online shop: odkrywajcie.pl

TECHNICAL ENVIRONMENT:	React, Typescript, CSS
---------------------------	------------------------
